Professional Summary

Data Analyst fresher with strong expertise in SQL, Excel, Power BI, and Python, experienced in analyzing real-world datasets to generate actionable business insights. Skilled in dashboard development, trend analysis, and data transformation to support business operations and decision-making. Proven ability to convert raw data into meaningful insights through structured analysis and visualization.

Technical Skills

- **Data Analysis:** SQL (Joins, Aggregations), Excel (Advanced, Pivot Tables, VLOOKUP), Python (Pandas, NumPy)
- **Visualization:** Power BI (DAX, Data Modeling), Tableau (Basic)
- **Database Concepts:** Data Warehousing Basics, Data Cleaning, Data Transformation
- **Tools:** Power BI Service, Jupyter Notebook, GitHub

Projects

Adventure Works Sales Dashboard (Power BI)

- Developed an interactive dashboard to analyze sales performance, revenue trends, and customer behavior
- Created KPIs and DAX measures to track business performance and improve decision-making
- Built data models and visual reports enabling clear identification of sales trends and patterns

Swiss Tourism Trend Analysis (Python)

- Analyzed multi-year tourism datasets (2019–2023) to identify seasonal trends and regional growth patterns
- Performed data cleaning, transformation, and exploratory analysis using Python (Pandas)
- Generated visual insights to support understanding of tourism demand and recovery trends

Job Market Demand Analysis (SQL, Python, Power BI)

- Extracted and analyzed job market datasets using SQL and Python to identify high-demand skills and hiring trends
- Built dashboards in Power BI to visualize demand patterns and support data-driven career insights
- Identified key trends in hiring requirements and skill demand across datasets

Experience

Data Analyst (Project-Based Experience)

- Collected, processed, and analyzed datasets from multiple sources for structured analysis
- Performed data cleaning, validation, and transformation to ensure data accuracy and consistency
- Developed dashboards and reports to communicate insights effectively
- Used SQL queries for data extraction and analysis across datasets
- Translated business questions into analytical solutions using data

Education

Bachelor of Engineering (Computer Science)

Tamil Nadu, India

2024

Key Strengths

- Strong analytical thinking and problem-solving skills
- Attention to detail and data accuracy
- Ability to work with large datasets and extract insights
- Quick learner with adaptability to new tools and technologies
